**Subject:** Fwd: OU7 call early October

The end of the week is better but pretty open depending on Ginny's SD schedule...

Jack, the week of Oct 17th works for BLM, as well.  
Thanks,

Dave Davis, Geologist  
(Acting) Branch Chief Fluid Minerals  
Nevada State Office  
Office: 775-861-6575

Dante,

I've been working with schedules and having difficulty finding availability for a critical mass of the team. The first week of October (week of Oct 3) is problematic for myself and a few of my technical folks. I'm having similar difficulty finding an available time the week of October 10. How does the week of October 17 look for your team? At this point, this week is looking promising.

**Subject:** OU7 call early October

Jack,

Feedback from the agencies regarding availability for an early October call to discuss Wabuska Drain results:

Best option #1: 10/3 from 10a-1p

[Dave D is only person not able to make it. Jeryl and Cynthia can make half of it, Jeryl 10-12 and Cynthia 11-1.]

Best option #2: 10/5 from 1-4p

[Jeryl is only person not able to make it.]

All other times had more people that would not be able to make it. How are your times looking, Jack?
